Description:

Theological dictionaries are foundational to any theological library. But until now there has been no Global Dictionary of Theology, a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology. The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South. But it also reflects the increase in two-way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree. The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to

discovering new facets of truth through listening and conversation on a global scale. Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach. Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited. William A. Dymess, Veli-Matti Kärkkäinen, Juan F. Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives. Pastors, theological teachers, theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry. Here is a new launching point for doing theology in today's global context.

I had to purchase this book for a class in seminary, but it is one I refer back to again and again. It provides a concise, balanced and biblically-informed perspective on most major theological topics. Two things stand out for me: 1) It brings a much-needed global perspective to each article, and 2) there is an evenness to the quality and readability of each article, something I find lacking in other similar works. Highly recommended.

Global Dictionary of Theology: A Resource for the Worldwide Church in Christian Books and Bibles pdf books

Global Dictionary of Theology: A Resource for the Worldwide Church

Of the Theology: Worldwide for Church Resource A Dictionary Global I ordered Operations Management: Process and Value Chains: 8th (Eighth) Edition, by Lee J.
